

## Dust Containment Kit

This unique system allows you to set up your containment area in just minutes! Contractors, remodelors, painters, window installers, masons, builders and abatement crews use the dust containment kit for projects requiring temporary isolation of dusty construction environments. For best results, position poles every 8' to 10'. If there is a lot of air movement, place close together.

### Kit Contains:

Four 12' Dust Shield Pro Adjustable Poles,  
Two 1.5" x 7' ZIP n CLOSE® Red Zippers,  
Heavy Duty Canvas Bag.

**0345100** Dust Containment Kit

**0345103** Adjustable Poles Extending  
up to 12' (2 pack).

## ZIP n CLOSE® Zippers

Installs in seconds with a pressure sensitive adhesive backing. Use a single zipper to form a flap or two zippers to create a wider opening. Can be operated from either side. Uses: Create an instant access to tarps or plastic enclosures. Reseals rooms to control dust and reduce heat loss. Perfect for all types of construction. For interior or exterior use.

## Smoke Puffer Leak Locator & Air Current Detection

Once activated, the Air Current Tester will produce small or large puffs with excellent control. Long streams can be produced to check for air movement over wide areas or smaller puffs for smaller areas. Hairline cracks can be identified easily.

Good for over 2000 puffs of smoke.

## Smoke Pen

This new Smoke-Pen from Regin is truly an innovation for anyone that needs just the right amount of test smoke. Works like a mechanical pencil. A patented smoke-emitting wick is inserted into the convenient to use pen. The re-usable Smoke-Pen is shipped in blister pack with six replacement wicks, providing 3 hours of continuous smoke or 360 individual 30 second tests. The smoke and the wick are non-toxic, no shipping regulations. Ideal for air balancing, verifying ventilation, testing smoke alarms, test for negative or positive air pressure.
