

# STORM PATCH®

## ALL WEATHER RUBBERIZED CEMENT

### Features and Benefits:

- Premium, all weather, roof cement.
- Actually displaces water from wet surface and creates a tight seal, even in driving rain or under water.
- Effective in wet or dry, hot or cold weather conditions.
- Repairs holes and cracks.
- Ideal for sealing leaks and openings around flashing, chimneys, vents, skylights, joints, gutters, pipes and similar objects.
- Withstands extreme weather conditions.
- Cures to form a high strength seamless membrane, which seals and protects the surface.
- Easy to use.
- Clean up tools, etc. with kerosene, paint thinner or mineral spirits, immediately after use.
- Available in clear (tubes) or black (tubes & gallons).

### Warranty:

- Against defective product

### Recommended for:

- Composition Roofing
- Asphalt Coated Built-up Roofing
- Clay Tile
- Cement Tile
- Metal Roofs
- Most Asphalt Roof Surfaces
- Concrete
- APP and SBS Modified Bitumen
- Spray Urethane Foam

### Coverage per gallon:

- 12.5 square feet per gallon at 1/8" thick depending on surface texture and porosity.
